

Atomic Finds ATX

Listing, Website & Status Workflow

Audience: Jennyfer, owner · **Status:** DRAFT · **Finish by:** September 16, 2026

An item is shown publicly only when its record is accurate, its status is current, and a buyer has one verified next step.

This questionnaire defines the safe path from intake to live listing, website display, pending status, and sold/archive handling. Review each section, check your answers, and return by the deadline above.

Status Vocabulary

These terms must remain exactly as written for consistency across your inventory, website, and Marketplace. Please review and confirm or note revisions below.

Status	Definition
Acquired	Internal only; not ready for public promotion.
In Prep	Being cleaned, assessed, repaired, or staged.
Ready to List	Record and photo set complete; not live yet.
Available	Owner-approved and has a verified buyer path: either a current item-specific Marketplace URL or a tested product-specific inquiry route.
Pending	Buyer, hold, or deposit process in progress; no immediate-purchase invitation.
Adopted	Confirmed sold; remove price and purchase CTA.
Archived	Not for sale and not necessarily sold; may be withdrawn, retained, duplicate, or a portfolio/story record.
Needs Verification	Facts, ownership, or source evidence are unresolved.
HOLD	Blocked pending owner decision or missing source material.

Vocabulary approval:

- ☐ Approved as written
- ☐ Revise (please note changes below)

Notes: _____

Timing question: How quickly must an item change from Available to Pending or Adopted once you know its status has changed?

- ☐ Same day
- ☐ Within 24 hours
- ☐ Within 2 business days
- ☐ Other: _____

Readiness & Listing Sequence

Please confirm this is the order you want to follow from intake to live listing:

1 Intake & Record

Assign SKU · Create inventory record ·
Capture source/intake evidence

2 Prepare & Photograph

Research · Clean/repair · Photograph & save
approved PNG assets · Measure

3 Write & Approve

Write listing draft from verified facts ·
You approve facts, condition, price, and
policy language

4 Publish & Promote

Publish Marketplace listing · Save exact URL
to record · Activate website item or inquiry
path · Instagram content if appropriate

- ☐ Approved as written
- ☐ Revise (please note changes below)

Notes:

Minimum Requirements for "Available"

Rule: An item may only carry Available status when all of the following are confirmed:

Identity	Provenance	Condition	Approval & Path
- SKU assigned - Public name or descriptive title - Category	- Source & date acquired - Materials when stated - Dimensions	- Accurate condition notes - Wear notes - Current approved photos	- Price confirmed - Owner approval on record - One verified conversion route

- ☐ Approved as written
- ☐ Revise (please note changes below)

Marketplace URL question: Does every Available website item need an item-specific Marketplace URL?

- ☐ Yes – hide "View on Marketplace" CTA until it exists
- ☐ No – a product-specific inquiry can be the active path

General link rule: A general Marketplace profile link may *not* appear as "View on Marketplace" for an individual item.

- ☐ Confirmed
- ☐ Revise

Verification questions:

Who verifies a Marketplace item link is active before website publication?

Where is that verification recorded? -----

Website Behavior by Status

Please confirm how each status should appear on your website. Check each row to approve or note a revision.

Status	Website Behavior	Confirmed	Revise
Available	Show "Ask About This Find." Show "View on Marketplace" only with an active, verified item-specific Marketplace URL.		
Pending	Show "Currently Pending." Remove immediate-purchase invitation.		
Adopted / Archived	Remove price and purchase CTA. Use "Adopted" or "Archive" label. "See Similar Finds" may appear.		
Acquired, In Prep, Ready to List, Needs Verification, HOLD	Do not present publicly as available.		

Revision notes: _____

Sold & Archive Process

Sequence when an item sells – confirm or revise:

- ☐ Approved as written
- ☐ Revise (please note changes below)

Notes: _____

What may an Adopted item retain publicly? (select all that apply)

- ☐ Public name and photos
- ☐ Verified materials/era only
- ☐ Condition/story/preparation notes
- ☐ "See Similar Finds"
- ☐ Other: _____

Note: Sale price is not offered as a default public option.

**Exception rule:** If the Marketplace listing, price, photos, or availability conflicts with the inventory record or website, immediately change the website item to Pending, Needs Verification, or hidden until it is reconciled. Do not leave it shown as Available.

- ☐ Confirmed
- ☐ Revise

01

Mark Marketplace sold

Mark Marketplace item sold or remove it.

02

Update inventory

Change inventory status to Adopted. Record date sold.

03

Update website

Remove website price and buying CTA.

04

Archive if approved

Move to Adopted Finds or Archive only if approved.

05

Social update

Update Instagram/highlights only if appropriate.

Closing Principle

The website is a curated showroom, not a promise of a complete real-time catalog.

Thank you for taking the time to define these workflows. Clear status and process protect both your reputation and your buyers' trust.

Please return this completed questionnaire by **September 16, 2026**. Once returned, these decisions become the operating standard for Atomic Finds ATX listings, website display, and inventory management.
